

Digital Tools used in Education and Training Pathways of Youth Workers -seminar

Education and Training Pathways of Youth Workers -seminar was held in Helsinki on 20th – 22nd February 2019. The program in the seminar included use of different digital tools to encourage collaboration between participants.

Digital tools are useful in different events with the purpose of giving autonomy to the attendees and facilitating communication between the participants.

This document presents the tools used in #Pathways19.

Slido

Slido was used in the seminar several times.

Slido is an audience interaction tool for meetings, events and conferences. It offers different methods to make participation easy: interactive Q&A, live polls and insights about audience.

Slido can be used via sli.do app or the browser version on your computer/mobile phone. It is easy to use both for participants and the presenter.

Audience members don't need to register but Slido requires presenters to sign up. Slido has a free version and a paid version with more features.
